# Autonomous Sourcing Policy

**Version:** 1.0 | **Effective Date:** 2026-07-21

## Section 1 — Purpose

This document defines the rules used by the Autonomous Sourcing Assistant to identify approved purchase requisition lines that qualify for autonomous negotiation creation, and by the Supplier Negotiation Award Assistant to select the best supplier response. Only requisition lines whose item category appears in Section 2 below, and whose line amount does not exceed the corresponding Maximum Requisition Line Amount, are eligible for autonomous sourcing.

## Section 2 — Eligible Categories

| Category | English Reference | NegotiationTemplate | NegotiationOpenDurationDays | MinimumNumberOfBids | MaximumRequisitionLineAmount |
|---|---|---|---|---|---|
| استشارات تقنية المعلومات | IT Consultation | Two Stage Complex PO | 10 | 3 | 100000000 |

| محطة ارساء | Dock Station | Standard Purchase Order | 7 | 3 | 100000000 |
| ترخيص | License | Two Stage Complex PO | 10 | 3 | 100000000 |
| اللوازم المكتبية | Stationery | Standard Purchase Order | 7 | 3 | 100000000 |

## Section 3 — Award Basis

The default award basis for all eligible categories is lowest price per line. Sole-source award is applied when a single supplier submits the lowest price across all lines of a negotiation; otherwise, award is applied at the line level.

## Section 4 — Post-Award Action

Once an award is approved, Oracle Fusion automatically generates the purchasing document (Standard Purchase Order, Two Stage Purchase Order, Standard Complex PO, or Two Stage Complex PO) corresponding to the NegotiationTemplate assigned to the awarded category.

## Section 5 — Eligibility Conditions

A requisition line is eligible for autonomous sourcing only if: the requisition is Approved; the line is marked as requiring negotiation and is not already covered by an existing negotiation; the line's assigned buyer matches the configured autonomous sourcing negotiation owner; the line's item category matches an entry in Section 2; the line amount does not exceed the MaximumRequisitionLineAmount for its category; and the requested delivery date is on or after the negotiation close date plus the category's NegotiationOpenDurationDays.

## Section 6 — Supplier Invitation

Suppliers are invited automatically based on historical purchasing data for the matched category, using negotiation templates configured with the "Send invitation to all contacts" option enabled.

## Section 7 — Policy Summary

**Group 1 — Negotiation template: Standard Purchase Order (Duration: 7 days, Minimum bids: 3, Maximum line amount: 100,000,000)**
